Description: ? Meet Vesper, our little evening star from the Midnight Garden! ? Vesper is our precious salt-and-pepper girl, with a beautiful dark coat, soft silver shading, and the sweetest little button nose. Nestled in creamy blankets, she looks like a tiny moonlit treasure, showing off her delicate pink toes as she dreams. Her softly folded ears and little paws curled close make her sleepy portraits especially sweet. Whether she's snuggled on her side or resting with her round little tummy on display, Vesper makes these early moments a joy to capture. Her name is inspired by the evening—a lovely match for this tiny beauty, tucked into her cozy corner of the Midnight Garden. ??
